

Project Design Phase-II
Data Flow Diagram & User Stories

Date	4 December 2025
Team ID	
Project Name	FreelanceX -Freelance Finder
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) shows the movement of information across the Freelance Finder platform. It explains how clients and freelancers use the system, how each module exchanges data, and how all actions are recorded and stored within the platform's database.

Example: DFD Level 0 (Industry Standard)

User Stories

User Story Table –FreelanceX - Freelance Finder

User Type	Functional Requirement (Epic)	User Story / Task	Acceptance Criteria	Priority	Release
Client	Job Posting	As a client, I want to post freelance jobs so I can hire skilled freelancers.	Job appears on homepage and client dashboard.	High	Sprint-1
Freelancer	Job Browsing	As a freelancer, I want to browse and filter available jobs so I can find suitable opportunities.	Filter returns relevant and accurate results.	Medium	Sprint-2

Freelancer	Job Application	As a freelancer, I want to submit proposals to clients so I can apply for projects.	Proposal becomes visible to the client immediately..	High	Sprint-1
User (Client/Freelancer)	Messaging	As a user, I want to chat in real time so communication becomes easy during the project.	Messages appear instantly for both users.	Medium	Sprint-2
Freelancer	Profile Management	As a freelancer, I want to update my profile and upload my portfolio so clients can evaluate my skills.	Profile updates are saved and visible instantly.	High	Sprint-2
Client	Payment Processing	As a client, I want to make secure payments after job completion so the freelancer gets paid safely.	Payment is recorded and displayed in transaction history.	High	Sprint-2

User (Client/Freela ncer)	Review System	As a user, I want to leave reviews after a project finishes so others can see my experience.	Review appears on the respective profile.	Medium	Sprint-2
Admin	User Moderation	As an admin, I want to review reported users so I can maintain platform safety and take necessary actions.	Reports and admin actions are logged successfully.	High	Sprint-1
